- No Glycol Ethers
- No Nonyl Phenols
- No Carcinogens
- Recyclable Packaging
- No Petroleum Distillates
- No Ozone Depleting Compounds
- Made from Renewable Resources
- Non Toxic: Non Sara 313
- Chemicals - Non Corrosive
- Exceeds Current Regulatory Requirements

MIXING INSTRUCTIONS:

STEP 1

Shake three (3) - 32oz bottle of 801 - Super Cleaner Concentrate and pour into a clean vented (5) five gallon mixing container (not included).

STEP 2

Pour two (2) - gallons of warm water into the container and mix. Make sure that you put the cap on the container and close the vent while mixing the container.

STEP 3

Pour two (2) - 16oz bottle of 802 - Oxygen Enhanced Activator into the mixing container and mix. Mix well as to mix-up, the concentrate, water and activator. Make sure that you put the cap on the container and close the vent while mixing the container.

STEP 4

Pour two more (2) - gallons of warm water into the container and mix. Make sure that you put the cap on the container and close the vent while mixing the container.

STEP 5

You now have 5 gallons of RTU (ready-to-use) ceiling and wall cleaning solutions. Product is now ready for application. Cut mixture by 1/2 for smaller jobs.

For Superior Results - Always test surface first before applying solution. Use professional ceiling sprayer. Remove soot and heavy dust build-up before spraying. Cover all equipment and area other than the ceiling prior to spraying. Evenly wet the surface. Do not over wet surface to a point where solution runs or drips off. Extremely stained or heavily soiled surfaces may require several applications. Always store in vented container.

Kit 801

**(3) 32 oz. Super Cleaner Concentrate
(2) 16 oz. Oxygen Enhanced Activator**

SHIPPING:

Size:
7" x 10" x 10"
